NEW PRODUCT ENHANCEMENT ANNOUNCEMENT

Tevron® Adds Full Support for VMware vSphere.

CitraTest, CitraTest VU, and CitraTest APM are the only single license, integrated solutions for conducting application performance monitoring, functional, regression and latency testing for every enterprise application that is accessible from a Windows based machine.

Nashua, New Hampshire, August 1, 2012 – Tevron today announced the addition of support for VMware vSphere to its suite of ETE Monitoring & Testing solutions.   VMware vSphere® is the industry's leading virtualization platform for building cloud infrastructures. With the latest releases of CitraTest, CitraTest APM, and CitraTest VU, Tevron again is taking the lead role in the ETE Monitoring & testing industry in providing support for every virtual environment including VMware vSphere® and every application that is accessible from a Windows machine. As companies across the world move towards the Cloud and VMware vSphere®, Tevron's ETE Monitoring & testing solutions will continue to offer the industry lead for application monitoring, load testing, and general automation. To learn more about Tevron's automated testing solutions or to request additional information, please call +1.866.788.3650 or visit http://www.tevron.com.

ABOUT TEVRON

Tevron® is a global leader in APM and Automated Testing. Through our all encompassing customer-centric vision and advanced technology, our APM & Testing Solutions allow the unique flexibility of supporting every application across the enterprise with one methodology delivering the ability to test, monitor, enforce SLAs, and optimize performance with confidence and ease. Founded in 2001, Tevron® is a global organization and is privately held. Our vast and diverse range of customers are global leaders and include companies such as Alcon Labs, Alverno, Northrop Grumman, Xerox, Hewlett Packard, Siemens, and USPTO, to name a few.
