

Fortune-500 Technology Company Selects Tevron for its Application Monitoring Requirements

CitraTest APM selected as the best of breed solution

Nashua, NH. USA - January 12, 2011 – Tevron, the leader in IT performance and availability monitoring solutions, announced today that one of the world's largest source of intelligent information for businesses with over 60,000 employees, deployed CitraTest APM (<http://www.tevron.com/citratest-apm.asp>) across all of their global locations for the monitoring and testing of all of their mission critical business applications.

Tevron was selected based on their powerful & flexible IT monitoring technology that fully supports every one of their very complex business applications (Web, Java, Thick Client, Oracle, Mainframe) and environments (VMWare, Windows 7, Windows XP, XenApp, RDP). Having one solution that intelligently supports every application is invaluable. Unlike the products from other vendors, Tevron offers a tightly integrated, simplified and scalable solution that meets the needs of their business and their ever changing technologies.

About Tevron (<http://www.tevron.com>)
