**Tevron® Solutions Fully Support all Eclipsys Applications ([www.eclipsys.com](http://www.eclipsys.com)).**

*CitraTest, CitraTest VU, and CitraTest APM are the only single license, integrated solutions for conducting application performance monitoring, functional, regression and latency testing for every enterprise application that is accessible from a Windows based machine.*

---

**Nashua, New Hampshire, June 17, 2010** – Tevron today announced the addition of support for all Eclipsys environments to its suite of APM & Testing solutions. Eclipsys (Nasdaq: ECLP) is a leader in delivering advanced healthcare IT solutions that make a tangible difference in quality, safety and cost-effectiveness. With the latest releases of CitraTest, CitraTest APM, and CitraTest VU, Tevron again is taking the lead role in the APM & testing industry in providing support for every Eclipsys application including Sunrise Clinical Manager, Access Management, Revenue Cycle Management, HealthXchange, PeakPractice EHR/PM, and more. As many hospitals, healthcare systems, clinics, and physician practices move toward Eclipsys, Tevron's APM & testing solutions will continue to offer the industry lead for application monitoring, load testing, and general automation for those critical deployments.

To learn more about Tevron's automated testing & monitoring solutions or to request additional information, please call +1.702.518.7435, email [sales@tevron.com](mailto:sales@tevron.com) or visit <http://www.tevron.com>.
