Tevron® Solutions are Citrix Ready (<http://www.citrix.com>).

CitraTest, CitraTest VU, and CitraTest APM have been certified by Citrix Systems and are “Citrix Ready”.

Nashua, New Hampshire, June 25, 2010 – Tevron today announced that its APM and Testing solutions are “Citrix Ready”. These solutions include CitraTest, CitraTest APM, and CitraTest VU. Citrix Ready™ is a Citrix Systems program that allows users to quickly and easily find solutions recommended by Citrix that are trusted to enhance Citrix offerings. The Citrix Ready program saves IT buyers’ time, money and hassle when it comes to making a purchasing decision. With the latest releases of CitraTest, CitraTest APM, and CitraTest VU, Tevron again is taking the lead role in the APM & Testing industry in providing full support for every Citrix environment including MetaFrame®, NFuse®, SecureICA™, WinFrame®, XenApp™, XenCenter®, XenClient™, XenDesktop®, XenServer®, and XenEnterprise. “For the past decade, Tevron has been & will continue to be the clear leader in providing Monitoring and Testing solutions for all Citrix based technologies. When using Tevron’s solutions, IT managers will spend less time dealing with crisis issues, and fighting costly fires and more time delivering efficiencies and new services to their customers, further adding value to their business. If you are working with Citrix products, you should be speaking with Tevron,” says Jay Labadini, Vice President.
