

Global Security Company Selects Tevron for its Citrix & Terminal Services Performance Testing Requirements across their Enterprise

CitraTest VU selected as the best of breed performance testing solution

Nashua, NH. USA - November 8, 2011 – Tevron, the leader in IT performance and availability monitoring & testing solutions, announced today that one of the leading global security companies that employs over 110,000 people worldwide and is principally engaged in the research, design, development, and manufacturing of advanced technology systems products, deployed CitraTest VU (<http://www.tevron.com/citratest-VU.asp>) across their enterprise for the performance testing of all of their Citrix & Terminal Services hosted, mission critical applications.

Tevron was selected based on their powerful & flexible IT performance testing technology that fully supports every one of their complex applications and environments (Windows 7, Windows XP, Citrix, Terminal Services). Having one enterprise performance testing solution that intelligently supports every application that is hosted via all versions of Citrix and Terminal Services is invaluable and extremely cost effective. Unlike the products from other vendors, Tevron offers a tightly integrated, non-intrusive, simplified and scalable solution that meets the needs of their complex technology business and their ever changing, cutting edge application environments.
