Tevron™, LLC Adds Full Support for Microsoft® Windows XP® to its AcuTest™ and CitraTest™ Family of Automated Testing Solutions.

AcuTest and CitraTest are the only single license, integrated solutions for conducting performance benchmarking and compatibility, functional, regression and latency testing across all Windows based applications, environments and browsers.

Chelmsford, Massachusetts, October 19, 2001 – Tevron, LLC today announced the addition to AcuTest and CitraTest the first automated capability to accurately test Windows applications in the Windows XP environment.

AcuTest is a revolutionary automated testing solution designed specifically for Windows enterprise users, ASPs, ISVs, and e-Businesses. AcuTest supports all environments in one single product license and is compatible with Windows 95, 98, NT, 2000, Millennium (Windows ME), NT Terminal Server, and now XP. CitraTest, designed specifically for Citrix enterprise users, ASPs, ISVs, and iBusinesses, also supports all Windows environments as Citrix hosted applications.

“Tevron’s proprietary image verification process provides for fast and accurate development for evolutionary new operating systems,” says Richard Byrne, Chief Technology Officer of Tevron. “Because of the immediate availability of XP support, enterprises, ISVs, ASPs, and iBusinesses will have no waiting period to test and roll out new XP applications with the confidence that they will perform to the highest level of service.”

AcuTest and CitraTest are virtually non-invasive and do not in any way modify the operating system of the System Under Test (SUT) by requiring only one DLL. Users are assured

the highest level of quality and accuracy, thereby saving money, time and resources and ensuring their ability to be competitive. AcuTest and CitraTest are designed specifically for testing Windows applications and are the world's only software test automation solutions for conducting performance benchmarking, compatibility, functional and latency testing for all Windows development environments and all browsers through one single license.

Tevron, LLC also offers totally non-invasive, automated testing solutions – AcuTest NI and CitraTest NI – that test any development environment, any application and any PC operating environment, and operate with all browsers, all custom controls and is the only solution for testing applications on thin client machines. CitraTest VU is the only load testing solutions for creating real user load activity for Citrix hosted Windows applications.

To learn how the AcuTest and CitraTest automated testing tools can improve the testing of your Windows applications including XP and to download a free evaluation copy, call 1.978.441.9844 or visit www.tevron.com.

ABOUT TEVRON, LLC

Tevron, LLC is a pioneer in a new class of automated software testing solutions. Utilizing Tevron's proprietary Image Verification as a platform for its automated solutions, Tevron's mission is to provide minimally or totally non-invasive automated testing solutions compatible with all operating systems, development environments and multiple hardware platforms. Tevron offers test automation solutions in both standalone software versions and totally non-invasive external appliance aided versions, as well as offering expert implementation and testing services.
