**Tevron® Solutions are Citrix Ready (<http://www.citrix.com>).**

*CitraTest, CitraTest VU, and CitraTest APM have been certified by Citrix Systems and are “Citrix Ready” for all the current versions of XenServer(6.0,6.0.2,6.1,6.2) & XenDesktop*

---

**Nashua, New Hampshire, July 23, 2014** – Tevron today announced that its APM and Testing solutions are “Citrix Ready” for the new versions of both XenServer and XenDesktop. These solutions include CitraTest (automation), CitraTest APM (monitoring) and CitraTest VU (load testing). Citrix Ready™ is a Citrix Systems program that allows users to quickly and easily find solutions recommended by Citrix that are trusted to enhance Citrix offerings. The Citrix Ready program saves IT buyers’ time, money and hassle when it comes to making a purchasing decision. With the latest releases of CitraTest, CitraTest APM, and CitraTest VU, Tevron again is taking the lead role in the APM & Testing industry in providing full support for every Citrix environment including XenDesktop and XenServer. “For the past 14 years, Tevron has been & will continue to be the clear leader in providing Monitoring and Testing solutions for all Citrix based technologies. When using Tevron’s solutions, IT managers will spend less time dealing with crisis issues, and fighting costly fires and more time delivering efficiencies and new services to their customers, further adding value to their business. If you are working with Citrix products, you should be speaking with Tevron,” says Jay Labadini, Vice President.
