Tevron, LLC Announces New Business Alliance with CIBER, Inc.

CIBER's Edison, NJ location joins the Tevron, LLC alliance as a Tevron Solutions Provider (TSP) adding Tevron's unique testing solutions to its server centric capabilities.

Chelmsford, Massachusetts, August 1, 2001 – Tevron, LLC, a company offering the world's most unique and accurate testing solutions, today announced a new alliance with CIBER, Inc. (NYSE: CBR) as a reseller of Tevron's CitraTest and CitraTest NI product solutions. As a TSP, CIBER will work with Tevron, LLC to provide enhanced automated testing solutions for its server centric computing customers.

“Having CIBER as a TSP substantially improves Tevron, LLC's strength in bringing its revolutionary new automated testing solutions to Citrix enterprise users, ASPs, ISV, and iBusiness customers,” explains Jay Labadini President and CEO of Tevron, LLC. “Backed by 27 years of information technology consulting, CIBER's more than 2,000 customers represent the kind of IT environment opportunities that can greatly benefit from more accurate and cost-effective Citrix application server computing solutions.”

“The addition of Tevron's CitraTest and CitraTest NI automated testing solutions to our vast expertise and resources is a welcome addition for our customers' IT challenges,” says Jeffrey Edelman, VP/Area Director of CIBER. “Offering this unique testing capability from Tevron continues our strong partnerships with best-in-class technology vendors to determine the most appropriate solution to meet our customers' business requirements.”

- more -

CitraTest is a revolutionary new automated testing solution designed specifically for Citrix enterprise users, ASPs, ISVs, and iBusiness. Because CitraTest is virtually non-invasive and CitraTest NI is a totally non-invasive testing solution, users are assured quality and accuracy, thereby saving money, time, and resources and ensuring their ability to be competitive. CitraTest is designed specifically for testing Citrix hosted applications and is the world's only software test automation solution for conducting performance benchmarking, compatibility, functional and latency testing for all Windows development environments and all browsers through one single license. CitraTest NI, supplemented with a proprietary external appliance, is the only solution for those testing efforts where a Citrix based application is running on a thin client machine, a non-IBM compatible PC, and/or a non-Windows based operating system. CitraTest NI is a powerful and completely non-invasive software test automation solution.

CIBER will now add CitraTest to its base capabilities that span today's technology solutions: Strategy and Enterprise Integration, Internet Services, Business Intelligence and Outsourcing. Adding CitraTest's capabilities brings a new dimension to Ciber's server centric solutions, better ensuring a most cost effective and reliable service to its customers.
