

Global 100 International Energy Company Selects Tevron for its End to End Application Monitoring Requirements

CitraTest APM selected as the best of breed solution

Nashua, NH. USA - February 25, 2013 – Tevron, the leader in IT performance and end to end monitoring & testing solutions, announced today that one of the largest international energy companies engaged in exploration and production, oil sands mining and integrated gas, deployed CitraTest APM (<http://www.tevron.com/citratest-apm.asp>) across their Global locations for the active monitoring of all of their mission critical operational applications. They are a Global 100, publically traded company with over 30,000 employees worldwide.

Tevron was selected based on their powerful & flexible IT monitoring & testing technology that fully supports every one of their very complex applications and environments (Windows 2008 Server, Windows 7, Citrix XenApp, Citrix XenServer, VMWare). Having one enterprise monitoring solution that intelligently supports every application, every Windows operating system, VMWare, and every version of Citrix is ideal and cost effective. Unlike the products from other vendors, Tevron offers a tightly integrated, simplified and scalable solution that proactively meets the monitoring needs of their complex operations and their ever changing technologies.
