

Global Financial Service Electronic Commerce Provider Selects Tevron for its RDS Performance Testing Requirements

CitraTest VU selected as the best of breed solution

Nashua, NH. USA – July 12, 2012 – Tevron, the leader in IT performance and end to end monitoring & testing solutions, announced today that a leading global provider of information management and electronic commerce systems for the financial services industry deployed CitraTest VU (<http://www.tevron.com/citratest-vu.asp>) for the performance testing and capacity planning of their Remote Desktop Services (RDS) Cloud environment. They have over 17,000 clients spanning the globe and over 23,000 employees.

Tevron was selected based on their powerful & flexible performance testing technology that fully supports every one of their very complex business applications (Thick client & Web) and Remote Desktop Services (RDS) Cloud environment. Having one enterprise performance testing solution that intelligently supports every application hosted in the RDS Cloud is invaluable. Unlike the products from other vendors, Tevron offers a tightly integrated, simplified and scalable solution that meets the needs of their complex financial services business and their ever changing Cloud technologies.
