

Leading Oil & Gas Driller Selects Tevron for its ETE Application Monitoring Requirements

CitraTest APM selected as the best of breed solution

Nashua, NH. USA - July 19, 2012 – Tevron, the leader in IT performance and end to end monitoring & testing solutions, announced today that one of the leading oil and gas drillers in the United States deployed CitraTest APM (<http://www.tevron.com/citratest-apm.asp>) across their US locations for the active monitoring of all of their mission critical business drilling applications. They have over 9,000 employees.

Tevron was selected based on their powerful & flexible IT monitoring & testing technology that fully supports every one of their very complex applications and environments (Windows 2008 Server, Windows 7, Windows XP, Citrix). Having one enterprise monitoring solution that intelligently supports every application, every Windows operating system, and every version of Citrix is invaluable. Unlike the products from other vendors, Tevron offers a tightly integrated, simplified and scalable solution that meets the needs of their complex business and their ever changing technologies.
