**Tevron™, LLC Introduces Direct Link Between its AcuTest™ and CitraTest™ Family of Automated Testing Solutions and BMC Patrol, HP OpenView, Tivoli, and Fortel's SightLine.**

*The AcuTest and CitraTest products are the only single license, integrated solutions for conducting performance benchmarking and compatibility, functional, regression and latency testing across all development environments, applications and browsers.*

---

**Chelmsford, Massachusetts, November 21, 2001** – Tevron, LLC today announced the added capability to accurately measure client side application performance through AcuTest and CitraTest and directly report the real time performance metrics back to web management solutions provided by companies like Fortel, Tivoli, BMC, and HP.

“By integrating Tevron’s automated testing solutions with these 3<sup>rd</sup> party solutions, we can provide our customers with the ability to realize the benefits of our uniquely accurate client side application testing and performance measurement while using industry standard web management solutions” says Jay Labadini, President and CEO of Tevron. “While augmenting the AcuTest and CitraTest, VU and NI testing solutions with more metric, reporting and response systems, testing the real end user experience will save time, money and assure ultimate customer satisfaction.”

AcuTest is a revolutionary automated testing solution designed specifically for Windows enterprise users, ASPs, ISVs, and e-Businesses. AcuTest supports all environments in one single product license and is compatible with Windows 95, 98, NT, 2000, Millennium (Windows ME), NT Terminal Server, and now XP. CitraTest, designed specifically for Citrix enterprise users, ASPs, ISVs, and iBusinesses, also supports all Windows environments as Citrix hosted applications.

- more -

Tevron, LLC also offers totally non-invasive, automated testing solutions – AcuTest and CitraTest – that test any development environment, any application and any PC operating environment, and operate with all browsers, all custom controls and is the only solution for testing applications on thin client machines. CitraTest VU is the only load testing solutions for creating real user load activity for Citrix hosted Windows applications.

To learn how the AcuTest and CitraTest automated testing tools can improve the testing of your Windows applications including XP and to download a free evaluation copy, call 1.978.441.9844 or visit [www.tevron.com](http://www.tevron.com).

## **ABOUT TEVRON, LLC**

Tevron, LLC is a pioneer in a new class of automated software testing solutions. Utilizing Tevron's proprietary Image Verification as a platform for its automated solutions, Tevron's mission is to provide minimally or totally non-invasive automated testing solutions compatible with all operating systems, development environments and multiple hardware platforms. Tevron offers test automation solutions in both standalone software versions and totally non-invasive external appliance aided versions, as well as offering expert implementation and testing services.
