

Global Leader in the Healthcare & Technology Sector Selects Tevron for its ETE Application Monitoring & Automation Requirements

CitraTest APM selected as the best of breed solution

Nashua, NH. USA - November 6, 2012 – Tevron, the leader in IT performance and end to end monitoring & testing solutions, announced today that one of the world's leading health and technology companies deployed CitraTest APM (<http://www.tevron.com/citratest-apm.asp>) for the active monitoring & testing of all of their mission critical business applications. They have over 128,000 employees. The company is a market leader in cardiac care, home healthcare, energy efficient lighting solutions and new lighting applications, as well as lifestyle products for personal well-being and pleasure.

Tevron was selected based on their powerful & flexible IT monitoring & testing technology that fully supports every one of their very complex Citrix hosted applications and environments. Having one enterprise monitoring & testing solution that intelligently supports every application, every Windows operating system, and every version of Citrix is invaluable. Unlike the products from other vendors, Tevron offers a tightly integrated, simplified and scalable solution that meets the needs of their complex healthcare business and their ever changing technologies.
