

NEW PRODUCT ENHANCEMENT ANNOUNCEMENT

Tevron® Adds Full Support for Microsoft Windows 10.

CitraTest, CitraTest VU, and CitraTest APM are the only single license, integrated solutions for conducting application performance monitoring, functional, regression and latency testing for every enterprise application that is accessible from a Windows based machine.

Nashua, New Hampshire, January 6, 2016 – Tevron today announced the addition of support for Microsoft Windows 10 to its suite of ETE Monitoring, Load Testing & Automated Testing solutions. Windows 10 is currently running on over 200 million devices worldwide. With the latest releases of CitraTest, CitraTest APM, and CitraTest VU, Tevron again is taking the lead role in the ETE Monitoring & testing industry in providing support for every application running on every Windows operating system including Windows 10. As IT organizations begin to roll out Windows 10 across the enterprise and begin to monitor & test their mission critical applications, Tevron’s ETE Monitoring & testing solutions are ready to assist.
